

The BE (Business Enterprise) Inspired Project aims to promote business enterprise and entrepreneurship for adults with intellectual disabilities (AID)

OBJECTIVES

- To develop an accredited business enterprise programme for AID that will make self-employment and will encourage entrepreneurial spirit and thinking
- To develop an enterprise / entrepreneurship strategy to promote entrepreneurial thinking, action and real life problem solving for trainees with disabilities.
- To Identify, document, and disseminate best practices for entrepreneurship education and thereby increasing AID understanding, appreciation, and support of enterprise.
- To strengthen existing programmes and articulate future needs for entrepreneurship education for AID within the EU.
- To promote self employment as a valid career option for people with disabilities.
- To provide a course on leaving school to advance skills and learning for AID away from traditional paths.
